

To: Redistricting and Elections Committee Members

As a citizen of michigan, I am asking that my strong opposition against a National Popular Vote Compact in Michigan be entered into the record of the Redistricting and Elections Committee deliberation. The structure of the electoral college system, while complicated was one of the more ingenious decisions of the writers of our constitution. Many over the years have proposed tinkering with this institution and have yet to come up with a more equitable way to represent the will of our democratic REPUBLIC. The National Popular Compact is definitely not such a plan.
